THE DARKROOM Oct 11th and 12th 2008

Exploring and Expanding Your Vision

Instructor: Marc Malin

COURSE DESCRIPTION

This is a hands on workshop; participants will be working in film not digital medium.

Saturday 8 AM to 6 PM:

Expanding Your Vision

- We will leave for a morning photographic hike, through assignments and individual instructing we will explore your nature leanings and expand upon them to begin the process of developing a body of work.
- Zone System Basics, we will be discussing exposure and shooting for ideal film development to control contrast and obtain the best negatives possible.
- After Lunch we will return to The Darkroom to develop our film.
- Hands on learning, with one on one instruction.

Sunday 10 AM to 5 PM:

Expanding your control and expression

- Continue topics of day one
- The process of editing and choosing what to print, to work towards building a body of work.
- Hands on printing and evaluation
